January 9, 2011

GRAND-OPENING SERVICE JANUARY 16, 2011

One week to go until the day we've been praying over and working toward. It's "crunch time" as we get all of the smaller details (and some not so small) cared for. The major construction is past minus the baptistry which is being built as I type this.

We're very excited about the transformation that has taken place in and outside of the building where we will be holding services. Yet, we're looking forward with great anticipation too to the transformation that will take place in the lives of those who walk through our doors and who through our ministry are won in and around Dumaguete. There has been a lot of hard work—even blood, sweat, and tears, to get this work complete, and we know there will be more of the same in the process of the eternal work of seeing many pass from death to life and from darkness to light. Please pray that we'll find God's grace sufficient for every need and that He'll allow us to be a shining light for Him. Our building is a head turner as people drive by and see it well lit and our new church sign out front. Many have stepped in and have promised to be at our first service.

Many of the men who were hired to work on the building do not live here locally, but some have expressed a desire to at least come and see the building used in which they've spent many hours. Bro. Mike Morrissey has worked very close with the construction crews and took some time to witness to them as a group. Several received Christ both in this meeting and individually. Thank you for your continued prayer!

Mike Morrissey witnessing to workers.

These men were happy to hear the Gospel.

God has given us a prime location to meet on the National Highway. We are on the main road between the airport and the city.

Elizer, a friend made through WNU in Bacolod, came to help us paint our nurseries following themes at FBC Hammond.
